# About Kazakhstan

Kazakhstan is the world's largest landlocked country, and the ninth largest in the world, with an area of 2,724,900 square kilometers (1,052,100 sq mi). It is a transcontinental country largely located in Asia; the most western parts are located in Europe. Kazakhstan is the dominant nation of Central Asia economically, generating 60% of the region's GDP, primarily through its oil/gas industry. It also has vast mineral resources.

Kazakhstan is officially a democratic, secular, unitary, constitutional republic with a diverse cultural heritage.[16] Kazakhstan shares borders with Russia, China, Kyrgyzstan, Uzbekistan, and Turkmenistan, and also adjoins a large part of the Caspian Sea. The terrain of Kazakhstan includes flatlands, steppe, taiga, rock canyons, hills, deltas, snow-capped mountains, and deserts. Kazakhstan has an estimated 18.3 million people as of 2018. Given its large land area, its population density is among the lowest, at less than 6 people per square kilometer (15 people per sq mi). The capital is Astana, where it was moved in 1997 from Almaty, the country's largest city.

The territory of Kazakhstan has historically been inhabited by Turkic nomads who trace their ancestry to many Turkic states such as Turkic Khaganate etc. In the 13th century, the territory joined the Mongolian Empire under Genghis Khan. By the 16th century, the Kazakh emerged as a distinct group, divided into three jüz (ancestor branches occupying specific territories). The Russians began advancing into the Kazakh steppe in

the 18th century, and by the mid-19th century, they nominally ruled all of Kazakhstan as part of the Russian Empire. Following the 1917 Russian Revolution, and subsequent civil war, the territory of Kazakhstan was reorganized several times. In 1936, it was made the Kazakh Soviet Socialist Republic, part of the Soviet Union.

Kazakhstan was the last of the Soviet republics to declare independence during the dissolution of the Soviet Union in 1991. The current President, Nursultan Nazarbayev, has been leader of the country since then, and is characterized as authoritarian, with a government history of human rights abuses and suppression of political opposition. Kazakhstan has worked to develop its economy, especially its dominant hydrocarbon industry. Human Rights Watch says that "Kazakhstan heavily restricts freedom of assembly, speech, and religion", and other human rights organizations regularly describe Kazakhstan's human rights situation as poor.

Kazakhstan's 131 ethnicities include Kazakhs (63% of the population), Russians, Uzbeks, Ukrainians, Germans, Tatars, and Uyghurs. Islam is the religion of about 70% of the population, with Christianity practiced by 26%. Kazakhstan officially allows freedom of religion, but religious leaders who oppose the government are suppressed. The Kazakh language is the state language, and Russian has equal official status for all levels of administrative and institutional purposes. Kazakhstan is a member of the United Nations, WTO, CIS, the Shanghai Cooperation Organization (SCO), the Eurasian Economic Union, CSTO, OSCE, OIC, and TURKSOY.

# Climate

The territory of Kazakhstan stretches for more than 3000 km from west to east and almost 2000 km from north to south. Climatic peculiarities are due to the amplitude of the country. Whereas temperature can hit 50 degrees below zero in the north in winter, in summer in the south melons ripen and cotton grow. The climate of Kazakhstan (excluding south) is sharply continental with average temperature between -4 °C and -19 °C in January and between +19...+26°C in July. In winter temperature may decrease down to -45°C, and in summer rise up to +30.

One can experience all four seasons on the territory of Kazakhstan with frosty winter, blossoming spring, heating summer and scarlet autumn. Cold winter starts in November and lasts till the end of April. The influence of Arctic air masses leads to a strong cold (up to -50 °C). Springs are short and changeable – from mid of April to end May. Besides spring weather is very unstable: clear warm day may suddenly turn into cold. Dry hot summer begins in the end of May and lasts till mid September, with temperatures sometimes going up to +35...+40 °C. Autumn with its stable weather and night frosts begin in the end of September and lasts till the beginning of November.

The highest temperature in Kazakhstan was registered in the city of Turkestan (South Kazakhstan) with +49 °C. The lowest was observed in the city of Atbasar (Akmola region) -57 °C. Besides, Astana is the coldest city in the world after Ulan-Bator however it is not an obstacle for the capital city to warm guests

**DIAL CODE - +7**

## Fast Fact about KAZAKHSTAN:

The ninth largest country in the world, Kazakhstan is one of the most developed countries in Central Asia. It is very rich because of its abundance of oil and minerals. If you walk through the capital of Astana, you will feel as though you are in the future, because of all of its futuristic architecture. The cities are great places to meet people, experience the energy of the

nightlife and shop to your heart's content. Not only does it hold promise in the cities, but also outside, as there are many adventures you may embark on whether in the steppes, valley of Tian Shan or quaint villages.

- Kazakhstan is the 9th largest country by size in the world. It's a huge place with a very small population of only 16 million people.

- It's the largest landlocked country in the world, with Russia to its North, China to the West, Uzbekistan down South and the Caspian Sea on its Western Border.
- Kazakhstan is landlocked, but it has a naval force, which is based on the similarly landlocked Caspian Sea.
- Most of the country is extremely flat and barren. This is the famous "steppe" (semi-arid and generally without trees, this area is extremely hot in summer and very cold in winter).
- The country is nominally Muslim, but there are few outward signs of this. Mosques are not frequently seen or heard. The many years of Soviet rule, when religion was downplayed, have diluted its importance in the country as a whole.
- Kazakhstan is the 9th largest country by size in the world. It's a huge place with a very small population of only 16 million people.
- The Downtown in Astana has relatively new city with a fancy, over-the-top skyline!
- War heroes' monument is located in Almaty and Uralsk as memory of the lost ones during the World War II.
- Kazakhstan is home to the Baikonur Cosmodome, the world's first and largest space launch facility. It is leased by the Russians until 2050.
- About 0.5% of the population is of Korean descent. Many women of all ethnicities set up market stands selling Korean salads and pickled vegetables. We loved making a lunch from these delicious offerings and the spicy carrots were amazing!
- The New Year for Kazakhs is called Nauryz, and it is celebrated on the 22nd of March.
- The largest water body inside the bounds of the country is Lake Balkhash, which is one of the biggest lakes of the world. The lake has a unique quality about it. One half of the water remains saline, whereas the other half of the lake has fresh water.

# Living in Kazakhstan for studying MBBS

## Food & Accommodation

Living is not an issue in Kazakhstan. For International Students, there are a variety of options. Either they can get a university dormitory or stay in private hostels or rent living rooms with some hosts. Cuisine in the country is greatly influenced by the neighbourhood. From Chinese to Russian to European, you can find almost every food item. There are foods with quite some Eastern European influence. Kazakhstan is relatively safe, not very congested and not polluted. Study MBBS in Kazakhstan.

## Culture

Kazakhstan has a well-articulated culture based on the nomadic pastoral economy of the inhabitants. Besides lamb, many other traditional foods retain symbolic value in Kazakh culture. Kazakh culture is largely influenced by the Turkic nomadic lifestyle. Because animal husbandry was central to the Kazakhs' traditional lifestyle, most of their nomadic practices and customs relate in some way to livestock. The traditional Kazakh dwelling is the yurt, a tent consisting of a flexible framework of willow wood covered with varying thicknesses of felt. Study MBBS in Kazakhstan.

## Climate

Kazakhstan's climate is sharply continental. That means, it's much like India, with winters being cold while summers being moderate. In some regions, temperature may go down very low but other times it is little cold to moderate, thus making it a favourite place to live in. Study MBBS in Kazakhstan.

## Kazakhstan Tourism

Kazakhstan is the largest landlocked country. Kazakhstan offers very beautiful cities to visit which are like 21st century showpieces with futuristic architecture. Apart from its modern cities, from mountains to plateaus to deserts and arid regions, Kazakhstan has a lot to offer you to travel and see. Study MBBS in Kazakhstan.

# Kazakh Medical University of Continuing Education

The Kazakh Medical University of Continuing Education was founded in August 1963, when the USSR Council of Ministers decided to establish the Almaty State Institute of Postgraduate Medical Education (ASIPME). By the Decree of the Government of the Republic of Kazakhstan in May 2014, the Institute was reorganized and renamed the Kazakh Medical University of Continuing Education.

For more than half a century, KazMUCE has been the coordinating center in the Republic of Kazakhstan for the postgraduate training of the highly qualified specialists and the continuous professional development of health care personnel for practical public health, medical science and education.

The pride of the university is the faculty, including the highly qualified specialists. Among them there are the laureates of the State Prize, Honored Scientists of the Republic of Kazakhstan, Honored Doctors of the Republic of Kazakhstan, members of the Academy of Sciences of the Republic of Kazakhstan and foreign countries, and chief external experts of the Ministry of Public Health. More than 200 teachers have got various academic degrees, 65 of them are Doctors of sciences, 132 are Candidates of sciences, 55 employees have got an academic Master's degree. The faculty staff conducts the therapeutic and consultative clinical activities and provides the consultations for the most severe patients throughout the country.

In KazMUCE, there are more than 50 departments and courses that cover the entire education cycle: undergraduate and internship programs, residency, master's program, doctoral studies and supplementary education. Every year about 1,500 students are admitted and over 10,000 specialists from all regions complete the advanced training.

In 2018, the university opened its doors to undergraduate and internship students. The students complete their education on 5 specialties: "General medicine", "Stomatology", "Public health", "Nursing", "Pharmacy", internship students - on two specialties: "General medicine" and "Stomatology". General medicine internship includes "Obstetrics and Gynecology", "Surgical Diseases", "Internal Diseases", "General Medical Practice", "Pediatrics". In the master's and doctoral studies the educational programs are realized on 4 specialties: "Medicine", "Public Health", "Medical and prophylactic business", "Nursing", in the residency - on 29 specialties. The advanced training and retraining of health care personnel is carried out on 65 specialties.

Since 2017, the university has been implementing a joint two-diploma Kazakh-Finnish master's program on the specialty "Nursing" with a two-year course of study. Under the program of academic mobility, undergraduates at KazMUCE study at the universities of the applied sciences as JAMK, HAMK and LAHT in Finland.

# Kazakh-Russian Medical University

# About University

Kazakh-Russian Medical University is one of the largest private universities in the country (State license AB 0026246). KRMU had passed four state certifications (1998, 2003, 2007, 2012) and issues State Diplomas. Kazakh-Russian Medical University, formerly Kazakhstani Medical Institute, had opened its doors in 1992, in the wake of major political and economic reforms, when the important role was given to the reforms of science and higher education. One of the first private graduate schools in CIS was founded by Dr. Mukhtar Aliyevich Aliyev, the Member of the Academy of Sciences of the Republic of Kazakhstan, the President of the Academy of Medical Sciences of the Republic of Kazakhstan, the Member of the International Association of Surgeons, and the National Hero of Kazakhstan together with Professor K.M. Maskeev and Assistant Professors V.S. Holubchenko and A.O. Panova.

KRMU works closely with universities in countries near and far abroad. Our partners list includes "The Federal Center of Heart, Blood and Endocrinology named after A. Almazov" (Russia), "Nagasaki University" (Japan), "Baltic International Academy" (Latvia), "Pyatigorsk Medical and Pharmaceutical Institute" (Russian Fed.), "Volgograd State Medical University (Russian Fed.), "The Kyrgyz-Russian Slavic University named after B.N. Yeltsin" (Kyrgyzstan), "Bashkir State Medical University" (Russian Fed.), "Omsk State Medical Academy, (Russian Fed.).

## Student Life

Students are provided with comfortable rooms at the modern hostels situated within the medical campus. Students have all conditions for enjoying sport and social activities such as sport halls, swimming pools, Internet.

Different social and cultural events are organized for international students. The academy provides a springboard for sportsmen with sporting facilities such as sports complex, including gymnasium, indoor football, badminton, tennis, volleyball, athletic stadiums, etc. The Faculty's staff encourages academic, national and other interests of students. National and International associations of students are being organized to unite students from different countries.

# Kokshetau State University named after Shokan Ualikhanov, Kokshetau

## About University

Sh. Ualikhanov Kokshetau State University is a modern, actively developing higher educational institution with great traditions, great potential and serious plans for the future.

Educational activity of the University is aimed at realizing the tasks set by the President of the Republic of Kazakhstan, N.A . Nazarbayev to create a flexible, open, continuously developing and accessible system of training international level academic staff.

The University trains students in 53 specialties of bachelor's degree in full-time, evening and correspondence forms of study, 28 specialties of magistracy, 6 specialties of PhD-doctorate.

The high level of training of specialists was confirmed by the Independent Agency for Accreditation and Rating (IAAR). In 2016, 17 educational programs of bachelor's and master's passed national specialized accreditation. In total, 60 educational programs of bachelor's and master's degrees have been accredited to date. Six educational programs have passed international accreditation.

Within the framework of the cultural project "The Triunity of Languages", the university implements a multilingual education in 17 educational programs in the pedagogical, scientific and engineering fields. In 2016 the first graduate of the multilingual programs was held. Two-degree educational programs of magistracy, joint with Dostoevsky Omsk State University, are implemented. 11 teachers of our university study at the postgraduate level in Russian universities.

A multidisciplinary college is opened at the university, which provides training for students in pedagogical and economic specialties.

Sh. Ualikhanov KSU participates in the implementation of the state program "Serpik - 2050", within the framework of which 728 students are studying at the university.

The university has developed a comprehensive program for the implementation of the State Program for the patriotic education of youth. An important direction of the youth policy of the University is multicultural education, strengthening of interethnic concord. For more than 7 years, the Student Assembly "Atameken" has been working to unite representatives of 20 different nationalities. Actively introduced club forms of work with students, widely disseminated in the practice of the best universities in the world.

For the desire to achieve high quality of products and services in accordance with European standards Sh. Ualikhanov KSU was awarded with the sign of the International award "EUROPEAN QUALITY". In 2015, the university entered the European and Eurasian Association of Universities.

## Mission

The mission of the university is to train highly qualified specialists, including those who are multilingual, in demand of the national and international labor market.

## Vision

Sh. Ualikhanov Kokshetau State University is an institution of higher education with a high material and technical base and developed infrastructure which is opened to the world for a cooperation with foreign educational institutions, carrying out preparation of highly educated, competitive, innovatively oriented specialists.

# M.Kozybayev North Kazakhstan State University

## About us

---

M.Kozybayev North Kazakhstan State University aims at preparing professionals and leaders who will contribute to the development of their country and the world by creating, accumulating and spreading knowledge. M.Kozybayev North Kazakhstan State University lays huge emphasis on the educational integrity of the institute. The quality of teaching at North Kazakhstan State University is very good, which is a result of the great efforts of the faculty members of M.Kozybayev North Kazakhstan State University.

M.Kozybayev North Kazakhstan State University is located in Petropavlovsk. The people of Petropavlovsk

are helpful towards the new entrants in the city. Some of the famous tourist attractions in Petropavlovsk are Tri Brata for its natural beauty and volcano, Monument to Peter and Paul, Vulkanarium and Kamchatskiy Kamen.

M.Kozybayev North Kazakhstan State University is one of the oldest educational institutions in the Republic of Kazakhstan with 80 years of its existence.

In May, 2014 the university has got the institutional accreditation for 5 years by the decision of Accreditation Council of the Independent Agency for Accreditation and Rating.

Today, one of the most important strategic tasks of the university is the accreditation of educational programs in foreign agencies.

M. Kozybayev NKSU enters updated in the anniversary year, its structure has changed, new development priorities until 2019 have been determined. We have something to strive for, we have set ourselves an ambitious task: to enter the top 10 of the national ranking of the best multidisciplinary higher educational institutions of Kazakhstan.

# Mission

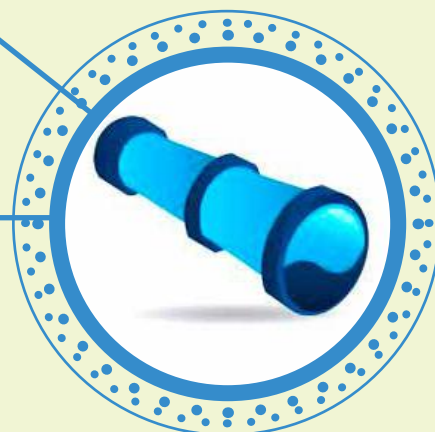

---

## **The mission of the M. Kozybayev NKSU:**

To be the intellectual center of education, science and culture, contributing to the innovative development of Northern Kazakhstan.

# Vision

---

## **The vision of the M. Kozybayev NKSU:**

- becoming one of the ten best multidisciplinary universities in Kazakhstan;
- development of the unified information-analytical, scientific-innovative and educational environment;
- integration into the world educational space while preserving the academic values and developing entrepreneurial culture;
- formation of graduates' research skills and relevant competencies;
- development of the personality of a citizen-patriot, capable of self-realization in modern society for the benefit of the development of Kazakhstan.

# Hostels

- The university has 3 students' hostels with 1036 beds, the living area of which is 12742,1 m<sup>2</sup>.
- All hostels has the capital repairs.
- There are wrestling, weight halls and the ski base in hostels.
